

## HAWAIIAN HOLIDAY

A singles travel group from Cincinnati, Ohio offers vacations four times a year. The only requirement besides paying for the trip is that you not travel as a couple. Accommodations are designed around double occupancy with two of the same gender occupying a room.

This trip is to the Islands of Hawaii for two fun filled weeks. Side tours to all the Islands and various activities are set up for those who wish to take them. Instructions in surfing, snorkeling, scuba diving, and hula dancing are available. The first 3 days are spent on specific activities and the remainder of the days are open to individual choices. Plenty of free time is also available for those who just wish to relax. The tour consists of 137 people this year, but those who are involved right now are the members of Scuba Group 3.

You met at the hotel in Honolulu on Monday (Jan 10), as some came in on different flights and connections. You were taken to the hotel and assigned your rooms. Then you attended a big buffet of Oriental foods. Tonight is the luau.

This morning (Jan 11) you were all out in the lagoon at Kaipuna, scuba diving. Since all of you have dived before in at least a swimming pool environment, you were judged skilled enough to try the salt water. Kaipuna is 55 feet deep, enough to get your attention, but not normally considered a dangerous depth.

Ned Nickels and Martha Moorley seemed to be very attracted to one another and Martin Mixler always tagged along with them. However, what ever else they shared with each other, death in the lagoon is what they share now. There are no sharks in the area, no sea snakes, or giant squid. The only unnatural thing in the lagoon is the God Ikie Stikie, God of premature death.

Our challenge is simple - either find out who killed Ned and Martha or find out how to appease Ikie Stikie.
